

“What sets us apart is our commitment to understand each resident’s unique needs.”

Seeking to eliminate loneliness, helplessness, and boredom for our residents, Springhill Senior Residence incorporates a holistic approach going beyond the treatment of physical symptoms.

◆ SPECIAL SERVICES ◆

SPIRITUAL SERVICES

Close ties with local clergy allow us to meet the needs of our residents. Religious gatherings are conducted on the premises, and clergy are available for individual pastoral visits.

LAUNDRY SERVICES

Linens and towels are provided and laundered at the facility. We also launder personal clothing.

BARBER/BEAUTY SERVICES

Beautician and barber services assist residents in looking their best.

◆ SPECIAL PROGRAMS ◆

Our efforts to provide a well-rounded environment for residents extends into other areas.

RESIDENT COUNCIL

Quarterly meetings provide opportunities to communicate with staff and enhance service levels.

FAMILY COUNCIL

Family members participate in planning special events and provide valuable feedback to our management.

SPRINGHILL MEDICAL CENTER

“Our goal is to tailor our services to achieve the highest quality of life for each individual – mind, body, & spirit.”

Care away from home may be viewed by some as care of a last resort. Families and friends may fear relinquishing their efforts to another. We don't agree. Whether a resident comes here for a brief time or for a lifetime, our resident's family and friends are still an integral part of the care team.

Our residents are encouraged to continue to live a stimulating, fulfilling life while seeking new companionships in a clean, homelike environment. Our staff of nurses, social workers, certified nursing assistants and dietary staff works closely with other team members to provide comprehensive services in:

- Rehabilitation
- Exercise
- Recreation
- Restorative
- Counseling

“We're always seeking new and imaginative ways to enhance the care provided for those residents who call Springhill home.”

Family and friends are welcome to decorate resident rooms with furnishings and personal items from a lifetime of living. The staff will be delighted in learning more about your loved ones through these keepsakes.

A MARK OF EXCELLENCE

Quality improvement systems are used to continually evaluate our services. We measure response to treatment, personal satisfaction, and seek input to enhance current programs and develop new ones.

“We work with families in dealing with the emotions they may face when seeking assistance in rendering care for their loved one.”

RECREATION

Our Activities Department plans a calendar full of events to enable residents to live stimulating, fulfilling lives:

- Social Gatherings
- Holiday Celebrations
- Movies
- Arts and Crafts
- Music
- Exercise Programs
- Outings

Residents are encouraged to maintain past interests as well as pursue new ones. Families, friends and members of the community are always welcome to share in the fun.

THERAPY SERVICES

Upon admission the new resident is screened for each of the following therapy disciplines:

◆ SPEECH/LANGUAGE THERAPY

Our goal is to enable residents to communicate at the highest level possible. We also help residents overcome swallowing difficulties resulting in improved nutritional status and increased safety.

◆ PHYSICAL THERAPY

We instruct and help residents with exercises that help them adapt to the challenges of temporary or permanent disabilities.

◆ OCCUPATIONAL THERAPY

We focus on increasing a resident's ability to perform daily activities and, most importantly, attain maximum independence.

◆ WOUND CARE THERAPY

We use state-of-the-art wound care protocols and pressure relief techniques to restore skin integrity.

◆ ENTERAL THERAPY

Optimal nutritional status is attained and maintained for residents who are not able to eat by traditional means.

Ancillary Services

Local agencies provide laboratory and x-ray services as directed by a resident's physician. In addition, many other services can be arranged as required:

- Pharmacy
- Dental
- Optometry
- Podiatry
- Psychiatry
